Fixed Price Repair Services

DBM 2400/2700

INTEGRATED SOLUTIONS

Brooks Fixed Price Repair service for tool automation products is structured to address your operational efficiency needs by providing pre-set repair levels and fixed pricing at reduced cycle times based on the level of repair you require.

The DBM Series robots is the first of a family of products designed specifically for the simultaneous handling of two wafers, this robot features two independent R (Radial) axes. Two integral end-effectors allow a pre-aligned wafer to be exchanged with a processed wafer 25% faster than a dual paddle robot. In addition, the dual overlapping arm design minimizes footprint. High power integral amplifiers coupled with two end-effectors increase throughput and dramatically reduce wafer pick-and-place time.

Brooks has created a Fixed Price Repair program to support the DBM series product.

DBM Fixed Price Repair Options

Customer Benefits:

A Brooks Certified Repair is the right choice for customers who want professional high quality services. These repairs are designed to optimize aging product performance and achieve optimal lifetime for all your automation equipment.

- Repairs performed by factory technicians
- Repairs completed using only Brooks parts
- Fixed lead times for all products, independent of service level
- All Brooks repairs are covered by an industry leading warranty
- Brooks Advantage - Product technical experts and original design engineers
- On-line tracking simplified with e-RMA™

ProActive Agreements

For larger installed base customers, agreements are available coupled with either the Enhanced PM or Refurbishment service level to include exchange units. These agreements provide readily available spare units to support your operational uptime requirements. This program helps you manage equipment maintenance proactively to reduce unexpected down time, while the fixed price allows your operation to budget and forecast its maintenance expense.

e-RMA™

You can check the status of your repair order any time of the day or night, using our on-line tracking tool; e-RMA. e-RMA allows you to view up-to-the-minute real time order status information, so you don't have to wait to know where your order is.

GUTS® (Guaranteed Uptime Support)

Our GUTS rapid response system delivers unsurpassed responsiveness worldwide to any Brooks product problem. Every call to our GUTS line is answered by capable, empowered Brooks employees with the knowledge and resources to diagnose customer problems quickly and accurately. With GUTS, you are guaranteed an action plan within 59 minutes or less.
