# Fixed Price Repair Services

AxM™ 100/200/400

INTEGRATED SOLUTIONS

Brooks Fixed Price Repair service for tool automation products is structured to address your operational efficiency needs by providing pre-set repair levels and fixed pricing at reduced cycle times based on the level of repair you require.

The AxM™ is Brooks' Atmospheric Mount series of Class 1 clean-room compatible wafer handling robots. Available in bottom (ABM) or top (ATM) mount, these robots use Brook's production proven mechanical design, handle payloads up to 4 lbs., and have a stroke up to 13". The ABM and ATM 400 robot is ideal for handling wafers up to 300mm in diameter. The ATM-100 series of atmospheric robots are an optimal combination of precision, speed, and reliability.

Brooks has created a Fixed Price Repair program to support the AxM series product.

*ProActive Agreements*

For larger installed base customers, agreements are available coupled with either the Enhanced PM or Refurbishment service level to include exchange units. These agreements provide readily available spare units to support your operational uptime requirements. This program helps you manage equipment maintenance proactively to reduce unexpected down time, while the fixed price allows your operation to budget and forecast its maintenance expense.

*e-RMA™*

You can check the status of your repair order any time of the day or night, using our on-line tracking tool; e-RMA. e-RMA allows you to view up-to-the-minute real time order status information, so you don't have to wait to know where your order is.

*GUTS® (Guaranteed Uptime Support)*

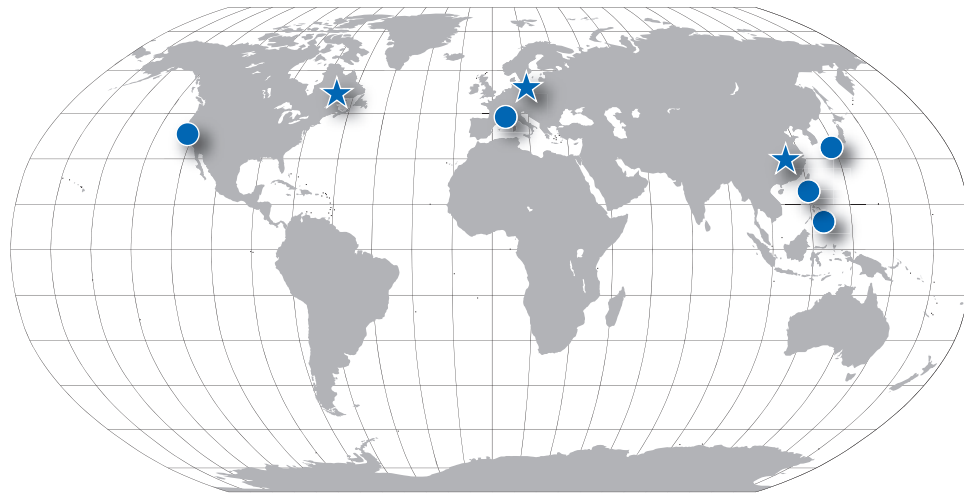

Our GUTS rapid response system delivers unsurpassed responsiveness worldwide to any Brooks product problem. Every call to our GUTS line is answered by capable, empowered Brooks employees with the knowledge and resources to diagnose customer problems quickly and accurately. With GUTS, you are guaranteed an action plan within 59 minutes or less.
