

Model 9600 Compressor Upgrade for GSD Classic Ion Implanters

Plug-n-Play Component Upgrade:

Brooks offers a performance-enhancing compressor upgrade that is a direct replacement for obsolete models:

- Model 9600 Compressor replaces the Model 8500, Model 8510, or Model 8300 Series compressors
- Potential to replace two (2) to three (3) smaller model compressors with one (1) 9600 compressor
- Compressor upgrades are available as a Rapid Exchange, Scheduled Exchange or Repair Service

Value Proposition:

Customers will see cost savings with improved compressor reliability and performance.

Model 9600 Compressor Upgrade for GSD Classic Ion Implanters

Features

- Improve Helium Input
- Improve Pump Efficiency
- Backed by 1-800-FOR-GUTS®:
7x24x365 Technical Support

Benefits

- Save fab space
- Improve vacuum stability
- Handle more pumps per compressor
- Ensure reparability of your installed base
- Eliminate obsolete compressors
- Ensure accessibility to spares
- Significant quality improvements over older model compressors increase performance, dependability and increase operational life
- Reduce Power Consumption by up to 50%
