

Model 9600 Compressor Upgrade for NV-10 Ion Implanters

Plug-n-Play Component Upgrade:

- Brooks offers a performance-enhancing compressor upgrade that is a direct replacement for obsolete models:
 - Model 9600 Compressor replaces the Model 8500, Model 8510, or Model 8300 Series compressors.
 - Potential to replace two (2) to three (3) smaller model compressors with one (1) 9600 compressor.
 - Compressor upgrades are available as a Rapid Exchange, Scheduled Exchange or Repair Service.

Value Proposition:

- The upgrade is for customers trying to reduce their cost of ownership for compressors. This upgrade provides increased reliability and performance.

Model 9600 Compressor Upgrade for NV-10 Ion Implanters

Features

- Improve Helium Input
- Improve Pump Efficiency
- Reduce Power Consumption by up to 50%
- Save fab space
- Backed by 1-800-FOR-GUTS®:
7x24x365 Technical Support

Benefits

- Improve vacuum stability
- Handle more pumps per compressor
- Ensure reparability of your installed base
- Eliminate obsolete compressors
- Ensure accessibility to spares
